*Explanatory note
(This note does not form part of the byelaw)*

The purpose of this byelaw is to enhance sustainable exploitation of certain shellfish species in the NWIFCA District by a) prohibiting the landing of berried or v notched lobsters, b) requiring escape gaps in all pots and traps, and c: limiting under a permit, the amount of fish which can be caught without possession of a commercial fishing licence. The byelaw creates a single shellfish regulatory regime for the NWIFCA District by extending to the whole District measures now in force in one or other of the previous SFC Districts.
