The district spans from the Welsh Border in the Dee Estuary to the Scottish Border in the Solway Firth. The area covered includes coastal Council landward areas and sea areas up to 6 nautical miles off shore.

What legal reason is my data processed for?

We have a duty to manage the sustainable exploitation of inshore fisheries resources and to create and enforce byelaws under the Marine and Coastal Access Act 2009. In order to manage the permit system established in Byelaw 30 we need to process your personal data.

What will my information be used for?

Will my information be shared with any third party?

We only disclose the information provided in this application form to other statutory agencies or organisations for the prevention and detection of crime.

How is my information held?

Your physical application form and supporting will be held under lock and key.

A digital copy of the information provided is held on the secure North Western Inshore Fisheries and Conservation Authority's permit database that is hosted by the Lake District National Park Authority.

How long will my information be held for?

Your application form will be destroyed within one month of the permit expiring.

Incomplete application forms will be one month after the expiry of the permit that was applied for.

The digital record will be retained for 7 years after your last permit expires. Following this a reduced record of name, permit, town and postcode will be held on record.
