Notes and Comments on the quarters performance

Corporate - over half of the budget set out for IT and members expenses, have already been spent in this first quarter, resulting in an overspend for the quarter.

Actions taken on the auditors recommendations

Point 1 - The Authority maintains a record of all IT equipment, supported by an appropriate IT strategy. This strategy has been shared with the auditors, who are satisfied with its contents. During the current quarter, a significant purchase was made—a new photocopier for the Carnforth office. This asset is expected to be retained for several years and has been recorded on the balance sheet. It will be depreciated in line with other fixed assets.

Point 2 - The financial report will now reflect a surplus or deficit for the period. Depreciation will be added back to the net result to present the overall operational surplus or deficit.

Point 3 - Amounts owed to the Authority by HMRC will now be reported as current assets, in accordance with the auditors' recommendation.
