| MARKETING INITIATIVES | Food is part of the Critical National Infrastructure (CNI) and sea fishing is a key element of the food chain. Fishers are reviewing their business operations and making the best decisions for them and the safety of their crew as to whether to continue fishing, with appropriate social distancing measures in place, or tie up. There is no compulsion on them either way. |
|--------------------------|---|
| | If you wish to sell privately, private buyers can purchase up to 30 kg of fish caught from a licensed fishing vessel for private consumption. Restaurants and commercial buyers are required to be registered. Seafish and Defra are currently promoting the Sea for Yourself campaign. |
| | For more guidance on marketing initiative please see the government website by <u>clicking here</u> or by visiting <u>Fish is the Dish</u> or <u>Sea Fish</u> . You can also email DEFRA on: <u>Registrationof.BuyersandSellersRBS@defra.gov.uk</u> |
